Subject: A job position where to utilize skills
and knowledge

Respected Sir / Mam,

I just completed my 12th exams in the Science stream and also possess good knowledge of Computer Science and coding as well. I can handle PCs and related hardware with ease and completed Office Automation and gained various skills. With this background, I would like to submit my candidature for any relevant job that helps you and your team.

I hope the above meets your requirements. I will be available for interview.

Thank You,

Yours faithfully,

Avesh Tanwar
